Below are some screen shots pertaining to the CertBlaster for A+ 220-901

The CertBlaster A+ practice tests include all the exam objectives seen above as well as all the Performance Based Question types you would encounter on the CompTIA exam. This is the Exam vs Drill selection page. Exams are exam simulations. Drills are one per CompTIA Main Domain meaning that all questions in a Drill belong to the same CompTIA Main Domain or exam objective.

As you can see from the two tables above this screenshot each Drill list the Main Domains featured in those tables. When you select an exam you have a choice of one of three different test modes:

This is an example of a CertBlaster performance based question taken from the CertBlaster for A+ 220-901. This question addresses A+ sub-objective 1.9. Click here to see a video demonstration if this very important question type on the A+ 220-901 exam.
